CAREER SUMMARY

Dedicated Linux administrator with over 2 years of experience in providing technical support & maintaining production environment. With hands-on expertise in managing RHEL & CentOS systems to ensure high availability, stability and performance. Passionate about delivering effective solutions, optimizing processes & continuously enhancing technical knowledge to drive operational excellence and innovation.

PROFESSIONAL EXPERIENCE

LINUX ADMINISTRATOR | Tata Consultancy Services Limited | Noida

May 2024 – Present

- Engineered and maintained scalable RHEL, CentOS, & SUSE Linux environments within virtualized architecture, ensuring 99.9% uptime & high availability.
- Optimized filesystem utilization by architecting logical volume management (LVM) solutions & implementing proactive disk partitioning & swap management strategies.
- Streamlined server lifecycle management by executing end-to-end commissioning & decommissioning of VM's, while maintaining precise infrastructure inventory logs.
- Reduced manual overhead by authoring robust bash shell scripts to automate recurring system upgrades, patching & configuration tasks.
- Ensured continuous compliance by auditing system security logs & monitoring user activity (using who, last), proactively mitigating potential security risks.
- Spearheaded complex L2/L3 troubleshooting for production environments, utilizing advanced performance monitoring tools (top, iostat, netstat, dmesg) to resolve critical system incidents.
- Executed precise root cause analysis by conducting deep-dive CPU, memory & process evaluations, resulting in faster resolutions times for infrastructure bottlenecks.
- Implemented quarterly patch management, vulnerability remediation cycles, automating updates via Ansible to maintain a secure & compliant Linux infrastructure.
- Oversaw mission-critical data integrity by managing backups & restore operations via Dell EMC Networker and performing database backup operations via CLI, ensuring high availability.
- Conducted basic monitoring and administrative tasks on IBM AIX systems & database for initiating the offline backups.

TECHNICAL SKILLS

Operating Systems: Red Hat Enterprise Linux (RHEL), CentOS, Ubuntu, Windows, IBM AIX

Configuration Management & Automation: Ansible (Playbooks), Bash Shell Scripting

Other Tools: Service Now, SSH, Putty, VMware vSphere, WinSCP, EMC Networker, Microsoft Office Suite, MS Office 365

EDUCATION

BACHELOR'S DEGREE Petrochemical Technology University Institute of Technology – RGPV, Bhopal	2019 – 2023
SENIOR SECONDARY ST. Joseph's Convent Senior Secondary School, Ratlam	2017 – 2018
HIGHER SECONDARY ST. Joseph's Convent Senior Secondary School, Ratlam	2015 – 2016

PROJECTS

- Successfully Upgraded the Ubuntu System from 20.04 LTS to 22.04 LTS.
- Successfully Upgraded the Data Domain Operating System from 8.3.1.20 to 8.3.1.30 version.

CERTIFICATIONS & TRAININGS

- Linux Redhat Certified System Administrator (RHCSA – EX200) - Udemy
- Azure Fundamentals (AZ – 900) – Microsoft
